Entrepreneurship and Freelancing

Final Project

Presented to: **Eng. Dalia Alharazin**

Student name: **Deema Mohammed AL-Maqadma**

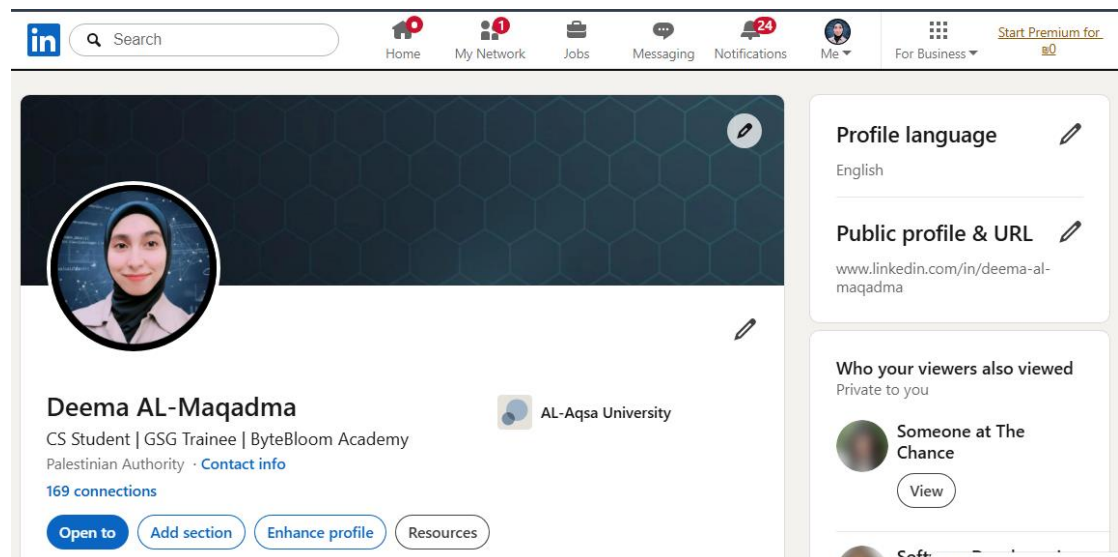

Student number: **2320230766**

Semester: First Semester 2025/2026

Final Project – Submission

1. Platform: LinkedIn

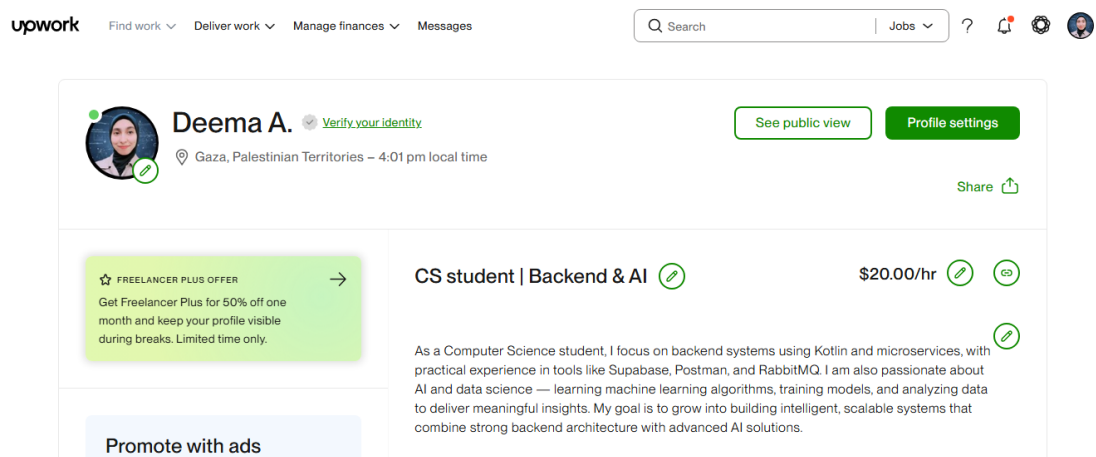

Built a professional LinkedIn profile highlighting my background in Computer Science, backend development, and AI. Added education, certifications, and skills to present a clear professional identity.

Conclusion :

Through this course in Entrepreneurship and Freelancing, I learned how to build a professional digital presence and prepare myself for the job market. By applying the concepts practically on platforms like LinkedIn, Upwork, and Freelancer, I gained valuable experience in presenting my skills, showcasing my certificates, and creating a portfolio. This practical step opens new opportunities to enter the freelancing world and strengthens my ability to grow as a software engineer and AI enthusiast.
